INFORMATION FOR AUTHORS

The Journal of Obstetric, Gynecologic and Neonatal Nursing is the official Journal of The Nurses Association of The American College of Obstetricians and Gynecologists and is designed to reflect thought, trends, policies and research in obstetric, gynecologic and neonatal nursing. Manuscripts are cordially invited. Research papers and other articles which incorporate views, experience and knowledge in obstetric, gynecologic and neonatal nursing will be considered for publication. All manuscripts must be contributed solely to *JOGN Nursing*. Address manuscripts to Mrs. Ruth Young, Editor, *Journal of Obstetric, Gynecologic and Neonatal Nursing*, One East Wacker Drive, Chicago, Illinois 60601.

Preparation of Manuscripts

Type manuscripts, double spaced, on 8½ × 11 plain white paper with 1¼-inch margins on both sides. Number pages consecutively and type author's(s') last name(s) on each page. Type reference list, tables and figure captions respectively as separate manuscript pages.

On the first page list the article title, name(s) of author(s), degrees, professional organizations, professional or academic titles, source of work or study (for research papers) and acknowledgments. On the second page supply an abstract of no more than 125 words, stating the aims, techniques, results and/or conclusions drawn from the article. On the third page supply a biographic sketch of the author(s) and attach a wallet-size photograph of the author(s).

Follow Dorland's *Medical Dictionary* and *Webster's Third International Dictionary* for spelling and style and *Index Medicus* for abbreviations of journal names.

Illustrations should be unmounted black-ink drawings or black and white glossy photographs. Do not write on photographs; keep explanatory material and legends in the captions.

Identify all quotations and other borrowed material as to author and source. Permission to use any material must be obtained in writing from the author.

Reprints

Fifty reprints of each article are furnished (gratis) by the publisher. Additional reprints may be ordered, prior to publication, by using the reprint order form accompanying page proof.
